Press Release

Deceased Motor Cycle Operator is Identified

Contact: D.Traub, 781-830-4917

With great regret, law enforcement is now able to identify the 26-year-old motor cycle operator killed in a collision this morning in the town of Milton as Colin Dixon, of Dorchester.

The crash remains under investigation by the Milton Police Department and the Collision Analysis and Reconstruction Section of the Massachusetts State Police, with assistance from the Motor Vehicle Homicide unit of Norfolk District Attorney Michael W. Morrissey's Office.

Preliminary investigation suggests that Dixon was driving his motorcycle southbound on Randolph Ave (Rte. 28) in Milton shortly before 9 a.m. when an Audi SUV driven by an adult male turned from the northbound lane in the direction of the entrance of Hallen Avenue.

Mr. Dixon was transported to nearby Milton Hospital but did not survive his injuries.

The operator of the other motor vehicle remained on scene and communicated with responding law enforcement.

There are no charges or citations in place at this time as the investigation continues.

The roadway is reopened to all traffic.
